About Us

WELCOME TO SIGNAPORE – Singapore is rapidly becoming a must see place in Asia with world-famous shopping and stunning attractions including two new integrated resorts, famed aquarium and the world’s only F1 night race along the streets of downtown Singapore.

Singapore is located centrally in South East Asia and being only one degree north of the equator, does not get severe weather. This makes Singapore a convenient and safe place to act as a ‘base’ for year-round regional cruises throughout South East Asia with owners and guests. Singapore offers Superyacht berths in several marinas island-wide and a wharf that can be used for berthing very large yachts alongside, located on the south central coast.

WEATHER

Singapore is an equatorial country with relatively uniform temperature, abundant rainfall and high humidity. The average daily temperature is 27° C. December and January are generally the coolest months. Singapore lies in the path of two monsoons that cause rainfall all year round. Most rainfall occurs during the northeast monsoon from November to March. During the southwest monsoon season from June to September, much of the rain falls in short, intense showers that alternate with sunshine.
