About Us

Despite its small size Sri Lanka boasts of one of the highest rates of biological endemism in the world whether in plants or animals and is included among the top five biodiversity hotspots in the world. Of the ninety-one species of mammals found in Sri Lanka Asian elephants, sloth bear, leopards, sambar and wild buffaloes engages the majority of the attention of wildlife enthusiast.

Meanwhile the ocean around Sri Lanka is home to large families of cetaceans including the mighty blue whales, sperm whales and lively dolphins. Altogether 26 species of cetaceans rule the waters surrounding the country, making it one of the best locations for whale and dolphin watching. Sri Lanka is filled with romantic landscapes, governed by rising mountains, lush forests and gushing waterfalls and considered a lost paradise by those fortunate to have journeyed in around Sri Lanka.

The golden beaches of the country had been praised for their picture postcard views since eternity. The dusk and dawn and many human activities connected to these times of the day creates a vibrant picture along the coasts of Sri Lanka.

Endless beaches, timeless ruins, welcoming people, oodles of elephants, killer diving, famous tea, flavourful food and Sinaraja rainforest - need we go on?

ITINERARY

Cruising Adventures

The main cruising destinations in Sri Lanka consist of the North-East coast and the Southern coast which boasts of some of the most pristine beaches of the world. Asia Pacific Superyachts can craft a unique itinerary that can include one-of-a-kind events as well as sampling of the best of traditional Sri Lankan cuisine. Authentic experiences can be arranged, such as 'Stilt Fishing', found nowhere else in the world! Below is just a brief idea of some of the cruising areas and weather recommendations.

BERUWALA AND PASIKUDA

Ideal conditions for sailing are during the season of October to March, The beautiful coastal resort area of Pasikuda which offers one of the world's most gorgeous beaches can also be explored during the months of April to September where the weather is more favourable.

Cruise along the beautiful coastal belt of Bentota and Beruwala with a stopover in a picturesque cove for a private swim or paddle board. Or, set off in the afternoon to explore Barberyn Island

GALLE AND TRINCOMALEE

The serene waters of Galle and Trincomalee are perfect for dolphin and whale watching with the best time from August to March during the North East monsoon season. Cruising Trincomalee is recommended from April to July -the South West monsoon season.

MIRISSA

Mirissa is well known for its pristine beaches, water sports and luxurious villas and also a harbour for starting off many water sports, sailing and cruising.

BOLGODA LAKE

The Bolgoda Lake is within the city limits of Colombo, a popular sailing destination. Located towards the South part of Colombo within the suburbs of Piliyandala, the Bolgoda Lake is considered one of the country's largest freshwater bodies.

YACHTING ALONG THE SOUTHERN COAST

According to the season your voyaging can be from Trincomalee to Batticaloa and from Mirissa to Galle. Embraced with golden sunsets and the fresh saline breeze of the Indian Ocean, the Southern Coast is well known by locals and celebrated by visitors, which includes the less recognized towns of Weligama and Mirissa.

After enjoying Sri Lanka's unique shore attractions the visiting vessel could start off with a three day cruise, departing from Mirissa to Weligama Bay, Jungle Beach and Rumassala; and back to Mirissa. During the stay guests can go whale and dolphin watching, snorkelling, swimming and laze away on golden beaches.
